

“To care for people, to care for ideas .. require an interest and action for their welfare, influenced by context and perspective. As a student in AWPS I take interest in things I care about, I believe I have the power to make an impact, I feel cared for by teachers and leaders and this empowers me to grow beyond the classroom.”

A caring student

Leaders who care

“At Athena, we recognize that innovation cannot occur without taking risks, therefore we teach our children to be resilient. However, we must not lose sight of our humanity. We need to cultivate the social values of caring, sharing and having faith in themselves and others. Education is liberation and we want our children to learn in their own unique ways so that they remain motivated all the time.” Mr. Raj

Mr. Raj the founder and executive chairman of Athena education visited the school for open discussion with students, teachers and leaders... Students had the chance to ask Mr. Raj questions about his journey of success. Mr. Raj shared his vision of true education beyond the classroom and his aspiration of AWPS students as future leaders of the UAE.

Expo 2020

With the school trip of a lifetime... from pavilions to unforgettable experiences. This visit sparked students' imagination and creativity.

*Mr. Mohamed Sakr-
Head of PE & Events*

Character day

Character Day is a global event for people to screen films on the topic of science as it relates to character development. Story book characters are great ideas for Character Day, especially if they're easily recognizable, such as any key characters from Harry Potter books, or from classic children's books such as Curious George or a Dr. Seuss story.

Students presented their favorite characters and spoke about how did these characters inspire them. The objective of this event is to make students read more , be knowledgeable, and speak fluently.

Reema Jerjawy- Head of English

CARING

International Day of Older Persons aims to raise awareness of the impact of an aging population and the need to ensure people can grow old with dignity and to elevate consciousness about points that are affecting the aged. Students celebrated by sharing a message of care and love to all.

Ms. Nada – KG Teacher

"The care of the Earth is our most ancient and most worthy, and after all, our most pleasing responsibility."

Trees represent life, growth, peace, and nature

They provide us with many benefits necessary for survival, including clean air, access to clear water, shade, and food. They also give us hope and insight, and courage to persevere – even in the harshest conditions. Trees teach us to stay rooted while soaring to great heights.

Al Wahda taking this responsibility by plantation week. "We care about the environment."

Science Teachers Grades 1 to 12

Pen-pal

Pen-paling is a lost art, so students were dedicated to write informal letters. they picked the recipient from school: classmate, teacher, admin to let them know how much they care about them. It was inspiring to share and receive those special messages

Ms.Lubna Farraj

We care about each other

Fire drills are important part of school safety procedures, students and staff are trained to evacuate the building quickly and safely in case of emergency.

INVESTITURE CEREMONY

The investiture ceremony was held on the 27th of October in the school theatre. The event was held to honor the Al Wahda Student leadership team. The event was marked by a badge ceremony and oath taking by the students. **Mr. Ian McNiff** (director of schools, ATHENA group) our guest of honor who inspired the students through his speech on the power to lead and make a change.

MENTAL HEALTH DAY

WE CARE ABOUT YOUR MENTAL HEALTH

Hello, this is Najla Al Zaabi from class 11G2 today I'm reporting our class assembly. Here, our main objective was to spread awareness about what's happening with millions of people who suffer from mental illnesses our assembly was about world mental health day, which took place this year on the tenth of October (10/10/21). Mental illnesses may affect how we think, feel, and act. It also determines how we handle stress relate to others and make healthy choices.

In our assembly firstly, we defined mental health and it is defined as a person's condition with regard to their psychological and emotional well-being, secondly, we had a short-acting segment of a therapy session the session was about a girl who suffers from anxiety and stress because of school and she has decided to visit a therapist, our main goal from the segment was to convince the students to visit a therapist if they have any mental illnesses as therapy can help you learn about what you're feeling, why you might be feeling it and will help you engage how to cope, thirdly, we discussed the importance of spreading awareness, we then talked about the various types of mental illnesses such as anxiety disorders, personality disorders, psychotic disorders, eating disorders etc. and lastly we had an online gaming quiz to test out the students' knowledge
