CHILD PROTECTION POLICY

2025-26

Principal: Mr. Duraid Al Oubaidy

PURPOSE

The purpose of this policy is to ensure that our school has student protection measures in place to:

1. Protect them while in the school's care from all acts and omissions constituting physical abuse, emotional abuse, sexual abuse and exploitation, neglect, and bullying.
2. Identify and support those students who may have suffered such abuse or neglect, as strongly enforced by the UAE Federal Law No.3 of 2016 on Child Rights, Federal Law No. 3 of 1987 on Penal Code, and other relevant UAE laws.
3. Emphasize that all SPEA employees and school staff are mandated reporters of cases of abuse and/or suspected abuse inside and outside the school.
4. Define duties and responsibilities of School Principals and school staff for responding to suspected cases of child abuse and/or neglect.

POLICY STATEMENT

Al Wahda Private School will always create a safe and secure environment for all students, who have not attend 18 years old. The welfare and safety of its students will be a priority of our staff always. Students must feel that they are safe to report any concerns and those concerns will be dealt with efficiently and in confidence.

This policy is written in compliance with the local requirements of SPEA and Ministry of Health & Prevention (MoHAP) along with the Community Police.

The designated first contact person will be the Vice Principal of Student Affairs.

PRACTICE AND PROCEDURE

Child protection, for the purpose of this policy, is defined as all measures, steps and actions that must be taken to protect students from risks that may cause harm or injury while they are in the school's care, travelling to and from the school using school transport, and moving between, waiting for, and taking part in, all activities organized by the school inside or outside the school campus.

All staff should make themselves aware of the signs of abuse and neglect both at home and at school. They should then follow the procedure of reporting those concerns or suspicions to the designated contact in school.

The designated person in school will have a knowledge and understanding in both recognizing and acting upon child protection matters reported to them by staff or parents.

Appropriate training (or prior training) must be given or have been given to the designated contact in school.

All staff must be aware of the school policy regarding bullying which can be found in the Teachers Handbook.

AL WAHDA PRIVATE SCHOOL will only recruit safe members of staff including teachers, admin, volunteer and ancillary staff if they have the required CRB and/or local security checks. Out sourced bus drivers and catering staff will have to be checked by their company and evidence provided to the school.

Similar checks will be expected to be made on all visitors who may from time to time visit school e.g. authors, theatre groups, university representatives and sporting celebrities. These will have to provide SPEA authorization prior to visiting school.

Where upon inspection or the intervention of SPEA finding any areas of weakness with our policy then the document will be amended as soon as possible considering the advice that has been given.

FORMS OF ABUSE

PHYSICAL ABUSE may involve hitting, shaking, throwing, poisoning, burning, scalding, drowning, suffocating or otherwise causing physical abuse to a child. Physical harm may also be caused when a parent or care feigns the symptoms of, or deliberately causes ill health to a child in their care.

Corporal punishment, a physical punishment inflicted on a child by a teacher or any adult in authority, such as the guardian, as a form of discipline, and is considered as Physical abuse.

EMOTIONAL ABUSE is the persistent emotional ill - treatment of a child such as to cause severe and persistent effects on the child's emotional development. It may mean conveying to a child that they are unloved, worthless, inadequate or valued only in so far as they meet the needs of another person. It may feature expectations which are age or developmentally inappropriate being imposed on a child. It may involve a child feeling frightened or in danger, or exploitation or corruption of a child or children. Special attention should be given towards excessive use of the internet as this is a source of emotional abuse.

SEXUAL ABUSE involves forcing or enticing a child or young person to take part in sexual activities, whether the child is aware of what is happening or not. This may include penetrative or non - penetrative acts. This may include non-contact activities such as looking at or watching pornographic material. It may also involve the encouragement of children to behave in sexual inappropriate ways.

NEGLECT is the persistent failure to meet a child's basic physical and/or physiological needs. The likely result is the serious impairment of the child's health and development. This may include the failure to provide adequate food, shelter and clothing, failing to protect the child from physical harm or danger, or failure to ensure access to proper medical care or treatment.

AL WAHDA PRIVATE SCHOOL LOST CHILD PROCEDURE

One of the most worrying aspects of a day in school is a 'lost child' both for the child and staff and this can be terrifying for parents. To minimize the possibility of losing a child ALL staff need to be vigilant in maintaining a check of children in their care. This means in addition to the statutory keeping of attendance registers, headcounts after break times and at the beginning of lessons should automatically take place. The practice will ensure that if a child should go missing then the loss will be quickly discovered, and action can be taken.

In the event of a missing child, the loss should be immediately reported to the Principal or to a senior member of staff who will then direct the course of action, which include all or some of the following:

- Alert other staff and deploy for a search keeping cover of remaining children.
- Question children and then conduct a search of buildings and outdoor areas.
- Parents should be informed if the child is not found within 15 minutes
- Keep searching with as many adults as possible and update using mobile phones.
- As a last resort and with consent of parents, call the police.

LATE COLLECTION PROCEDURE

If a child is not collected at the end of the normal working day, they remain OUR responsibility until alternative arrangements have been made.

Each situation will be different, and staff need to act with initiative but the following procedure is likely to be best practice. SAFETY COMES FIRST!

- Allow 20 min. leeway for traffic delay or other lateness.
- After 20 min. take the child to the designated waiting area where an adult will be on duty.
- Call the parents/ collecting person. Keep trying until contact is made.
- The child should not be left alone and should be reassured that a solution will be found.
- Under no circumstances must a child be allowed to go with another person/parent without the consent from the child's own parent or from the Principal

LATE COLLECTION FROM AFTER SCHOOL ACTIVITIES

Those in charge of after school classes or team sport at different venues are responsible for the care and safety of each child until they are dropped at home or collected from school. Under no circumstances may a child be left on their own.

In the event of a child not being collected then the teacher/activity leader must stay with the child for 15 minutes to allow for normal traffic delays or lateness.

After this time, the child should be taken to designated waiting area or if offsite the teacher should wait with the child and then follow the late collection procedure from point 3 above.

CHILDREN BEING DROPPED BEFORE SCHOOL OPENING TIME

Although we will discourage parents from dropping their children early some will do this because of work commitments and other factors. We will place a teacher on duty for the safety of our students from 7.30 am (may be amended when student numbers increase) and they will be supervised.

Students who arrive before this time will be kept in a designated safe area where they can be monitored by an adult, this may be a teacher or admin person. They will be told who is on duty and where to go in a case of emergency.

INTIMATE CARE FOR CHILDREN

Children do occasionally have accidents or injuries which necessitate some intimate care. It is important to consider two factors when dealing with these situations.

- Respect the privacy of the child.
- Be aware of the vulnerability of the member of staff assisting the child.

RESTRAINT OF STUDENTS

WHAT IS PHYSICAL RESTRAINT?

Restraint occurs whenever a member of staff, using intentional force, physically restricts a child's movement against his or her will.

Physical restraint does not include gentle prompting or guidance where the child is happy to comply to enjoy an activity. Physical restraint may be appropriate in certain situations e.g. a gymnastic lesson, first aid, or offering comfort. Staff should still be aware of the child's perception of this action.

Physical restraint is a procedure for dealing with an unsafe situation or crisis.

It must not be used as a punishment nor when a lesser response would have been an effective response to the situation. Deliberate use of physical contact to punish a student, cause pain, injury, or humiliation is unlawful, regardless of the severity of the behavior or provocation leading up to this action.

THE USE OF PHYSICAL RESTRAINT

Restraint should only be used in circumstances where there are good reasons for believing that the pupil is placing him/herself or other people in danger or where there may be significant damage to property.

If we are aware that a pupil is likely to behave in a way that he/she may need restraining, then it will be sensible to plan how we respond to that situation. This action should be shared with parents and all members of staff. A plan of action should be made so everyone is aware of how to behave during the process, who to contact and how to resolve the situation in the best possible way without causing injury or humiliation.

TYPES OF RESTRAINT

Restraint occurs whenever a member of staff, using intentional force, physically restricts a pupil's movement against the pupil's will. This may mean restraining a pupil or moving him/her by physical means.

Restraint can be:

Partial, restricting and preventing a particular movement. This may be applied in different degrees, it may mean moving a student from imminent risk in order to prevent injury and after a reasonable verbal request has been made. It may mean holding a pupil to restrict movement e.g. arms. It could also mean restricting their movement in a confined space e.g. an office.

Total, as in the case of complete immobilization. This is where a pupil is held in such a way which prevents movement. This could mean a pupil being held on the floor. This is an extreme

form of restraint and must only be used in exceptional circumstances where they or others were at risk.

Staff should be aware that for some pupils, the use of physical restraint may act as positive reinforcement for their behavior.

If staff use physical force to restrain a pupil, then the incident must be recorded in writing and the Principal informed so he can inform the parents before the end of the school day.
