Resolutions and recommendations:

- Integrate the Reading Classes for English language as well as Mathematical skills to the science curriculum.
- Increase the science periods for the elementary section grades (1-6) to six periods per week, in addition to five periods for the middle school students.
- Collaborate with English and Math Departments to enhance the presentation skills as well as the mathematical skills targeting the students projects (STEM)
- Grade 9-12 students will have 4 periods per week based on the main science subjects, Biology for grade 9, Chemistry for grade 10, and Physics in grade 11. However, for grade 12 students, Biology and Chemistry is offered for the students.
- RAZ kids to be used as an online resource for grades K-5, while E- science 3000 for grades 6-12. In addition, the brain Hub for the elementary level.
- Introduce six elective courses for grades 9-12 (Astronomy, Environmental science, health and Nutrition, Forensic Science, and Organic Chemistry). In addition to Pre biology and Ap Courses (Biology, Chemistry, and Physics), in order to fulfill the high school diploma requirements.
- To collaborate with Dr.Munair (one of the Parents) who is working in the Physics Department in Sharjah University in order to develop and enhance the physics skills for the high school students.
